

CA-NV SECTION of the AMERICAN WATER WORKS ASSOCIATION
2018 Annual Education Committee Report

MISSION: To provide valuable educational resources to the professional drinking water community. To accomplish this goal, the committee will provide outreach to identify topics and venues to best provide educational resources. Included within the tasks that the committee will undertake are to identify qualified instructors, quality programs, and talented presenters; to develop meaningful training courses, workshops, and education seminars; to focus on the needs of continuing education within the water professional community, and to sustain the future of the committee through recruitment of new members, effective communication, and a viable succession of officers and director.

How will any leadership vacancies or low number (<10) of committee members be addressed? [N/A or provide details.](#)

The Education Committee has historically had low membership. The Committee continues to invite and welcome new members. Despite low membership, the committee collectively volunteers a fair amount of quality time to Section activities, and we strive to continue to attract committed volunteers.

The Secretary position will be vacant starting this Annual Fall Conference (2018). The Education Committee will oversee filling this vacancy at AFC.
