

The California - Nevada Section of American Water Works Association (AWWA) is a non-profit association, whose mission is to support the water professionals who provide safe and reliable water. The American Water Works Association is the largest worldwide known nonprofit, scientific, and educational association dedicated to providing solutions to manage the world's most important resource: water. The focus of the organization is to ensure public health and to provide safe and sufficient water for all.

American Water Works Association California-NevadaSection

Since 1920, California - Nevada AWWA members and volunteers have impacted the industry with their commitment and dedication to leading, educating, and serving the drinking water community. Water professionals are ultimately responsible for ensuring public safety; this is why most belong to a professional and technical association. The American Water Works Association is the largest worldwide known nonprofit, scientific, and educational association dedicated to providing solutions to manage the world's most important resource: water. Our Section is a knowledge exchange for new technologies and strategies that can help improve your utility or organization and keep pace with new trends.

MEMBERSHIP

Your membership is an investment in the water industry and in your own professional development. Together we will work to enhance water quality and advance excellence in our profession. The CA-NV Section will strive to meet your expectations by providing the services and resources you need now and in the future. With two convenient options for learning, onside and online, you have access to hundreds of products and services to enhance your personal growth in your field of interest.

CONFERENCES & EVENTS Each year we offer technical conferences and events that qualify for contact hours. These events play an integral role in the advancement of our members' education and career goals. Here you can access higher learning and networking opportunities on a large scale. The community connection that exists at our conferences and education events is one of the key factors in making our association the largest in California and Nevada.

MEMBERSHIP DOESN'T COST, IT PAYS!

When you protect public health and safety, it is important to work with the right association.

CA-NV BENEFITS

Career Center

Post resumes, review & apply for existing jobs on our website.

Certification Advance your career with validated and professional certifications.

Conference & Events

Attend our conferences and events to earn contact hours and network with others from the industry.

Committees

Gain professional exposure through networking and committee involvement. Train to become a presenter for a technical or committee workshop or get involved with a committee of interest.

Educational Offerings

We offer classroom training, training on demand and online trainings, as well as technical conferences, seminars and workshops. (All qualify for contact hours).

Free Contact Hours Individual members receive FREE Contact Hours at Section events.

Online Training - H20 KNOW Water College.

Attend in the comfort of your home. Earn over 60 contact hours for each annual subscription. Save time and money!

Communications

Our SOURCE Magazine and Resource Guide will keep you informed, educated and competitive. Our Newsroom will keep you up-to-date about water industry developments on the national and regional level. And for those who have expertise in their respective fields, we invite you to submit articles to help educate our readers.

ADDITIONAL AWWA BENEFITS

Technical Databases

Members have access to free custom searches through Waternet, the most bibliographic database available on the water industry.

Bookstore

Tap into AWWA's extensive catalog of books, industry standards, DVDs and CDs to help you at school or on the job.

Water Library

Access over 7,500 articles for research and downloading through AWWA's Water Library.

Student Scholarships

These scholarships support postgraduate students who are interested in advancing the science of water.

Webcasts & Seminars

Quarterly training sessions aimed at today's breaking news and how it affects the water industry.

On-Line Communities

Your portal for information and events on such topics as water conservation, desalination and customer service.

Communications Toolkit

Comprehensive resources for effective communication with customers and stakeholders - use to build understanding and support.

GET INVOLVED AND MAKE A DIFFERENCE

It isn't always what we're getting that moves us ahead, but sometimes what we're giving back. Volunteering with the California-Nevada Section gives you the opportunity to share your knowledge and experience, making a difference in the water industry. When you choose to serve on a volunteer committee you open up a world of possibilities for networking and professional development while serving the drinking water profession. Volunteer member groups are the backbone of our association, and your contribution helps develop guidelines and standards that benefit the entire water community.

CA-NV Section Certification Program

For more information contact Membership at 909.291.2119 www.ca-nv-awwa.org/h2oknow **EDUCATION**

The California-Nevada Section is known for its quality training and instructors. Our courses,

workshops and reviews are IACET accredited and held throughout California & Nevada.

You can receive Contact Hours at any of our trainings.

BLUEPRINT FOR SUCCESS - Training on Demand

The Blueprint for Success program brings accredited Water College courses and workshops to your Utility or preferred location. The Section provides the instructor, training materials and contact hours/CEUs at a savings of up to 50% over traditional offsite trainings.

Many Utilities face significant challenges in locating quality water instruction that is affordable, convenient and flexible. The California-Nevada Section, AWWA developed a solution, the Blueprint for Success program. Blueprint for Success brings accredited college-level courses and workshops to your Agency.

The Section will provide IACET accredited Courses or Specialized Workshops at an affordable rate. You save on travel expenses such as lodging, mileage and meals. Upon completion your personnel will receive Continuing Education Units or Contact Hours. The program is great for Certification Exam Reviews. You can train your team while preparing them for your state's Certification Exam.

Agencies that have participated in the Blueprint for Success Program include the Los Angeles Department of Water & Power, Las Vegas Valley Water District, San Francisco Public Utilities Commission and US Navy.

The California-Nevada Section of AWWA (CA-NV Section) is a well-respected, IACET-accredited provider of water education, serving the needs of the water industry for over 95 years.

The CA-NV Section is looking for qualified individuals to serve as instructors. If you have solid experience in the water industry, and have taught or would like to teach water-related material to others, then the CA-NV Section is looking for you! We offer great pay, flexible, short-term schedules, and the opportunity to provide much-needed instruction to water operators and others in the water industry.

If you are interested in working as an instructor on behalf of the CA-NV Section, we'd love to hear from you!

For more information contact the Director of Educational Programs at 909-291-2116 ca-nv-awwa.org/education

STUDENT CHAPTERS

College and university students represent the next generation of water sector professionals and AWWA members. The CA-NV Section is committed to fostering strong ties with students interested in water careers, to encourage life-long membership and involvement with the association. AWWA student memberships and the participation of student members in a Section-sponsored student chapter offer numerous benefits to both the individual student member and the Section. Student members help build and maintain the vibrancy of the Association. In turn, the process of creating and managing a chapter allows students to develop important leadership skills that can be used for many years to come. Connections created in a university club setting often lead to relationships that will help build professional networks. The guidance and mentoring provided by the local AWWA Section can mean the difference in a student getting a job after college.

BENEFITS

Students are eligible to receive a discounted AWWA membership rate. Student membership is \$20 for students enrolled in a minimum of nine credit hours (or the equivalent) of accredited classes.

CA-NV AWWA provides up to \$1,500 per academic year for each student chapter to attend spring and fall conference, support guest speakers, refreshments for chapter meetings, and other activities.

CA-NV AWWA provides an opportunity for student chapters to be recognized at the spring and fall conference for their accomplishments. Participate in the certificate of recognition program to distinguish your chapter's hard work and add something noteworthy to the student's record for career building. The Section will recognize your Chapter at both the fall and spring conference.

CA-NV AWWA will promote student chapters by posting information on the CA-NV AWWA website as well as on social media and create links back to chapter websites.

CURRENT STUDENT CHAPTERS
