Note About Education

The California–Nevada Section of the American Water Works Association (CA-NV AWWA) provides a comprehensive range of educational offerings tailored to water professionals at all career stages. With over 95 years of service in water-industry training, the department is IACET-accredited and recognized by key state agencies like the Division of Drinking Water (DDW), CDPH, and Nevada Department of Environmental Protection.

Key Offerings

Technical Workshops and Courses (In-Person and Virtual)

Covering essential topics such as Distribution, Treatment, Backflow & Cross-Connection, Water Quality, Advanced Water Treatment and Water Audit Validator programs.

Online & On-Demand Learning

Through H2O Know—an eLearning platform offering self-paced courses on technical and leadership topics. Subscribers can earn contact hours annually, with new custom classes added regularly.

Live Webinars & Customized “Blueprints”

Timely, expert-led webinars with Q&A sessions, available live and on-demand. Individual, group, and annual subscription options are available. Blueprints are custom training for your staff, virtual or onsite, for your water utility.

CALL FOR INSTRUCTORS

The California-Nevada Section of AWWA (CA-NV Section) is a well-respected, IACET-accredited provider of water education, serving the needs of the water industry for over 95 years. The CA-NV Section is looking for qualified people to serve as instructors. If you have solid experience in the water industry and have taught or would like to teach water-related material to others, then the CA-NV Section is looking for you! We offer great pay, flexible, short-term schedules, and the opportunity to provide much-needed instruction to water operators and others in the water industry. If you are interested in working as an instructor on behalf of the CA-NV Section, we'd love to hear from you!

Backflow Instructors Needed!

Backflow certification is considered an essential service. CA-NV AWWA is in search of instructors to teach our essential workers.

This is a part-time paid position, and salary is contingent upon qualifications. The guidelines for the openings will be reviewed and explained during the interview process.

Required: Must have current backflow certification for at least 3 years.
